Maha Expo is an national/ International Electric Motor Vehicle Show will provide the opportunity and platform to electric vehicle Manufacturers, Dealers, Distributors, Sellers, Retailers to showcase their latest Products, technology and equipment, Smart and NextGen transport, electric passengers cars, scooter, motorcycle, cycles, buses, Ev Batteries, Solar Energy etc to meet and network with the trade industry as well as end users with the main aim to find out new business and protection of the environment.

Maha Expo is the best public interactive platform for resources sharing, product purchase and brand display for the people and industry. Since 2014 we are serving this Indian manufacturer and dealer industry. We are committed in providing best service in this journey.

Special focus on **Maha Expo** serves as a suitable platform for eminent industry professionals from power sector to directly connect with each other and deliberate upon the available renewable energy solutions. With wide global participation, it is an ideal platform to launch new products and display your products capabilities. Our exhibition aims to invite all electric vehicle, solar, lithium-Ion battery Manufacturer dealers, Distributors, Retailers, Importers and Exporters to provide an opportunity with your reputed representatives, manufacturers, distributors, Dealers, Retailers and shop owners of lithium-ion battery, Lead Acid Battery, Solar Energy and E-Vehicles, E-Vehicle parts and products across India.

All Businesses can share their invention & creativity with each other's at same time with end user. Advanced technologies in batteries, solar energy & E-vehicle products make up a large portion of the renewable energy. **Maha Expo** invites you to be a partner in our efforts to support a sustainable, energy efficient lifestyle at work and in your home in various ways. This exhibition plays host to companies showcasing a diverse array of green energy tools and accessories to the visitors. The main objective of this expo is to introduce new opportunities to the sector of Technology for professionals in electric vehicles, solar and batteries. Past 10 years we are serving our Indian market companies, also we are committed to serve best to our Indian revolutionary market. Now, we have planned to serve entire Maharashtra through our upcoming expos in Pune, Nasik, Nagpur, Kolhapur & other cities. It enables latest technology & set right platform for the government authorities, consultants, owners and developers, automotive experts, international and regional organizations, researchers and EV technology providers to share their view and expertise related to Future and Scope.

Mission: An unparalleled opportunity for government, manufacturers, distributors, exporters, dealers, Seller, Retailers, buyers and all stakeholders to meet under one roof. Business visitors and vehicle purchasers interested in EV products, mobility, schemes, trading, technology, networking, next-gen transport, joint-ventures, government incentives, etc. need look no further. Here c is India's most popular B2C forum for sales, marketing, branding, subsidies.

Vision: Promote India as a global electric hub on par with China, the g USA& Japan for EV manufacturing and sales. Highlight the latest in the EV, Solar, EV Battery industry to trade, buyers, operators, government, transporters & integrators... Provide a platform to domestic & international market players to showcase their products and technologies.

Why Attend Maha Expo 2024: A Glimpse into the Future of Electric Mobility. RENEWABLE ENERGY & EV EXPO 2024 will take place on 13th, 14th & 15th December 2024 at Kalagram, Prozone Mall Road, beside Garware Stadium, Chhatrapati Sambhajnagar, Mh., India which is organized by **Maha Expo Maha Energy**.

- Latest Electric Car, Electric Bike & Scooter- Display & Launch.
- Network with Automotive Component, Charging Equipment Manufacturers, Batteries, Automobile & Allied Industry.

Exhibitor Product Profile: Solar PV&CSP, Solar Panel, Solar Generators, Wind Turbine, Biomass Power, Wind pumps for Water Lifting, Generators/Inverters, Batteries and Power Systems, Electric Vehicles.

EXHIBITOR PROFILE

- 2 Wheelers, 3 Wheelers & 4 Wheelers Electric & Hybrid Vehicle Manufactures
- Accessories & Auto Parts Manufacturer
- Allied Products and Materials
- Artificial Intelligence / IOT / Manufacturing 4.0 / Robotics
- Assembly Solutions & Applications
- Autonomous Driving Systems & Drivetrain
- Banks, Financial Institutions & Insurance Companies
- Batteries & Components.
- Body & Chassis Fabricators
- Chargers, Connectors & Harnesses
- Drive System
- E-Cargo Vans, E-Solar Powered Boats, E-Buses & E-Golf Carts
- Electric Vehicle & New Energy Vehicles
- Electric Vehicle Accessories
- E-Bicycles & Tri Cycles
- Energy Storage Technology
- Entertainment, Connectivity & Navigation Systems
- Inverters & Peripherals

- Magnetic Contractors, Motors, Power Controllers & Powertrains
- Motor Technologies
- New Energy Vehicle Battery, Component Manufacturers & Infrastructure Providers
- Power & Energy Monitoring System, Power Devices
- Research & Development Rechargeable Batteries, Next-Generation Batteries Safety Driving

VISITOR PROFILE

- Automotive Manufacturers & Assemblers
- Automotive Component Manufacturers
- Automotive Consultants
- Automotive Training Institutes & OEMs
- City, Infrastructure Developers & Highway Concessionaires
- Component Suppliers & Purchasing
- Dealers, Distributors/ Traders
- E-Rickshaw Owners/Operators
- Hospitality Industry
- Insurance Companies

- Investors/ Financial Institutes
- IT developers/System Designers & Engineers
- Motor/Inverters Manufactures
- Operation & Services
- Policy Makers & Government Departments
- Production, Procurement & Factory Managers
- Rechargeable Batteries Manufacturers
- Testing Agencies.
